

TRAINING

Our vision is to support the development of equestrian sport at all levels and performance levels. Thanks to the first-class conditions as well as our unique network, we offer ambitious amateur and recreational athletes of all performance levels differentiated training opportunities with great coaches. The range of offers extends from courses to training camps and training days to preparation tournaments and training camps.

YOUTH

The promotion of young riders is close to our hearts. The Kids Camp and the Family Days introduce young riding enthusiasts to horses in a playful and responsible way. In the future, advanced talents will be able to compete against their regional, national and international rivals at tournaments and championships in Aachen.

EDUCATION

Well-founded knowledge enables professional handling of the horse. That's why we offer seminars, webinars, workshops, congresses and other training opportunities for equestrian sports in a professional atmosphere.

DIGITAL

Technology can make equestrian sport more tangible, understandable and exciting. For this reason, one of the aims of the CHIO Aachen CAMPUS is to promote the development of technologies for equestrian sport and to bring bright minds from outside to Aachen - for example for a hackathon to create solutions for events.

CHIO Aachen **CAMPUS**

365 days of the equestrian sport fascination

The equestrian sport is a fascinating sport. For young and old, for women and men, for girls and boys. In the scope of the CHIO Aachen CAMPUS, we are offering all those, who want to experience this fascination, the opportunity to live out their passion – at the most famous equestrian sport grounds in the world: the CAMPUS of the CHIO Aachen.

Here, on the traditional show grounds in Aachen's Soers, we have a unique infrastructure with the most diverse training and competition facilities - indoors as well as outdoors. The CHIO Aachen CAMPUS uses this infrastructure to open up a year-round offer for the equestrian sport with a focus on the promotion of young talent, training, education and digital - always connected with the annual highlight, the World Equestrian Festival, CHIO Aachen.

EXCELLENCE

The stepping stone to the top sport

The Excellence Programme paves the way for young and talented riders from all over the world to become top riders. Over a period of several months, top talents in dressage and jumping are given all the tools they need to be prepared for the "big circus".

Isabell Werth (Germany) and Jos Lansink (Belgium) are the two head coaches who can look back on unique success stories in international sport. In six training phases, they will let the participants benefit from their know-how and skills. In addition, the programme offers many other experts who support the young riders in matters of fitness, media and nutrition advice, training control, horse and stable management or career planning.
